

**45
GALLON**

50-State Legal.

Introducing the only legal gasoline replacement fuel tank for F-150 pickups!

The 45-gallon replacement tank is perfect for F-150 owners who want to maximize their fuel capacity and driving range without sacrificing truck bed space. It's the only high-capacity replacement fuel tank for the F-150 SuperCrew pickup with 3.5L engine that has a California Air Resource Board (CARB) Executive Order, making it legal for gasoline in all 50 U.S. states!

The fuel tank is crafted from 12-gauge high-yield U.S. aluminized steel, and includes internal baffles for strength and reduced fuel slosh. Installation is easy: drop the plastic stock fuel tank, replace it with the larger steel fuel tank in the same location, fill up and hit the open road.

The 45-gallon fuel tank system comes with an emissions canister and mounting hardware. Covered by a 6-year, unlimited mileage warranty.

* F-150's equipped with a 23- or 26-gallon stock fuel tank require a replacement sending unit (part no. 070-SE-34254). Trucks with 6 1/2 ft. bed require a Fuel Line Extension Kit (part no. 020-01-17011).

**5 1/2 & 6 1/2 FT BED
SUPERCREW**

Fits: 2018–20 Ford F-150/F-150 Raptor with 3.5L engine
Fuel: Gasoline
Ship Weight: 186 lb.
Dimensions: 88" L × 17 5/8" W × 19" H
Part Number: 080-01-16947

FEATURES AND BENEFITS

- For drivers who want to maximize their fuel capacity and driving range
- 50-state legal for gasoline
- Tank sits above the differential: no skid plate needed
- Fits in the same space as stock fuel tank
- Fuel tank mounts inside the frame rail
- Built from 12-gauge high-yield U.S.-made aluminized steel, for superior durability and strength
- Comes with straps and mounting hardware
- Additional emissions canister kit included
- Powder coated for a durable satin black finish
- Baffled to prevent fuel sloshing
- 6-year, unlimited mile warranty
